Background historical information

Tumaini Children's Home is a typical example of **Humanity at Work**. The late Ms. Joan Smith, a British tourist found a very sick child and took that child to the hospital for treatment. After recovery the child was handed over to her uncle who on realizing that the child was HIV positive, abandoned the child in a bush to die due to the stigma. Late Joan Smith was so touched by the incident and decided that something had to be done. She conceived the idea of a Children's Home dedicated for care of such Children.

- **Dreams and Ideas** create realities. She approached the Late Mr. Ajit Singh Bhogal whose advocacy brought many stake holders together. They made financial and professional contributions in building and managing the institutions for many years as Trustees and well-wishers to make Late Joan Smith's dream a reality.
- **Bamburi Holdings Ltd** donated the 2 plots on which exist the Home and the School. The Directors were Late Mr. Dalip Singh Obhrai 50%, Late Mr. Jaspaul Singh Kandhari 25%, Late Mr. Shukla 12.5%, and Mr. Iqbal Mirza 12.5%. Without this valuable land there would have been no home and affiliated Institutions.
